

Project "Junkeri"

Workshop—3: Communicable Disease
Shree Setidevi Aadharbhut Vidyalaya
Dhading-9, Kafal-Chaur, Nepal
17 February 2022

3rd Workshop Junkeri Program

Make a Difference Nepal has successfully completed third workshop Junkeri Program. The program was organized on 17th of February, 2022. The program was successfully completed with participation of only 20 students because of the current covid-19 situation and the health and safety regulation imposed by the Health Ministry of Nepal. The third workshop Junkeri program was delivered on the topic of Communicable Disease. The presentation also covered the topics related to transmission of communicable disease, stages of infection, environmental

Mr. Krishna Thapa presenting the 3rd workshop on Junkeri program-Communicable Disease

factors influencing spread of communicable diseases. and how to control the spread of communicable disease and promote personal hygiene. Make a Difference Nepal had prepared a pre-survey questionnaire form and a post-survey questionnaire form in order to evaluate the knowledge students had before the program and what they learned after attending the program. Mrs. Chandra Thapa volunteered and supervised/monitored the overall third workshop Junkeri program. The feedback provided by Mrs. Chandra Thapa after the completion of the program was appreciable and will definitely motivate MDN team to perform better. Regarding the program schedule of the program, MDN team reached Shree Setidevi Aadharbhut Vidyalaya and setup for the program. Mr. Krishna Thapa formally commence third workshop Junkeri program by an introduction speech to

MAKE A DIFFERENCE NEPAL

all the participants about our past Junkeri workshop and current Junkeri workshop. After an opening introduction to all the participants by Mr. Krishna Thapa, MDN team then distributed the pre-survey form to all the students. Mr. Pramod Basnet then explained the pre-survey form in Nepali language in order to make it easy for

students to understand the questions and tick the answer correctly. MDN team recollected the pre-survey form. After that, Mr. Pramod Basnet and Mr. Krishna

Thapa delivered a presentation on “Communicable Disease”. After the end of presentation by Mr. Pramod Basnet and Mr. Krishna Thapa on “Communicable Disease”, MDN team distributed the post-survey form to all the participants of the program. Participants after attending the

presentation presented by Mr. Pramod Basnet and Mr. Krishna Thapa, students gained a detailed knowledge regarding “communicable disease” which could be analyzed in the “True or False” and “Multiple Choice Questions (MCQ)” answers which vastly varied from the pre-survey answers. After completion of fill up of post-survey form, MDN team introduced a new open-art competition to the students of Shree Setidevi Aadharbhut Vidyalaya.
